At Haus of Skin, we elevate wellness with our bespoke Intravenous Infusions, a pinnacle of tailored luxury and health enrichment. Delivered by skilled practitioners, these infusions are meticulously formulated to cater to diverse body systems and unique wellness goals.

Our IV Infusions redefine indulgence, offering an array of custom formulations designed for various purposes. Whether seeking a revitalising antidote for a quick recovery or an anti-aging infusion for longevity and radiance, each blend is crafted to perfection. The essence of our Intravenous Infusions lies in their ability to deliver a swift, targeted boost of vitamins and nutrients directly into your system.

Indulge in the epitome of personalised wellness through our Intravenous Infusions at Haus of Skin—a flawless fusion of opulence, scientific precision, and rejuvenation. Crafted to address your individual requirements, these infusions harness the potency of nourishment, amplifying vitality and well-being.

Whether in our clinic or delivered to your preferred location—be it your home, hotel, private jet, yacht, or any place of convenience—immerse yourself in bespoke wellness with our Intravenous Infusions.

HAUS OF SKIN

Basic Hydration

Embrace the purity and revitalising power of our Normal Saline IV Infusion—a foundational step towards elevating your vitality and restoring your body's equilibrium.

In Clinic: £75 | Concierge: £150

Our Normal Saline IV Infusion stands as a foundational pillar of hydration, reinvigorating your body at its most elemental level. This infusion, consisting solely of saline solution, embodies purity and simplicity, delivering a replenishing surge of electrolytes and fluids directly into your bloodstream. Its composition mirrors the natural fluids within your body, restoring balance and revitalising essential functions.

The Normal Saline IV Infusion serves as a cornerstone for comprehensive wellness, whether as a standalone hydration boost or as the base for more intricate infusion formulations. Its fundamental role in replenishing your body's essential fluids makes it an invaluable tool in revitalising and supporting your overall well-being.

The Athlete

"The Athlete IV" is a meticulously crafted fusion, an essential tool for athletes seeking unparalleled performance optimization. Designed to propel you beyond limits, it's the secret weapon for those striving for athletic excellence.

In Clinic: £125 | Concierge: £200

"The Athlete IV" isn't just an infusion; it's your key to unlocking unparalleled athletic potential. Each component is meticulously selected to synergistically elevate every facet of your performance. From replenishing vital electrolytes with Saline to optimising muscle function and recovery through Magnesium, Carnitine, and Glutamine—every element is a catalyst for your peak athletic prowess.

Cognitive Enhancement

Enter the realm of enhanced mental prowess with our bespoke "Cognitive Enhancement IV." Crafted to elevate focus, mental clarity, and cognitive function, this infusion stands as a powerhouse, meticulously designed to ignite your mind's potential.

In Clinic: £150 | Concierge: £250
